Dossier: Corroborated Non-Human Entities (NHE) – First-Mover Compilation

Compiler & Researcher: Tyrone Farmer

Date: March 14, 2026

Sources: U.S. Congressional Testimony (2023), Lue Elizondo (AATIP/AARO), David Grusch (40+ insider interviews), historical texts (Livy, Pliny, Julius Obsequens), modern military logs (WWII Foo Fighters, Vietnam DMZ), abductee polygraph reports.

1. Gray (Primary Type – Most Reported)

- Height: 3–4 feet.
- Build: Emaciated, elongated limbs.
- Skin: Smooth, slate-gray, moist appearance.
- Head: Oversized (1.5x human), bald, no ears.
- Eyes: Large black almond, no whites/pupils.
- Nose/Mouth: Vertical slits / thin line.
- Hands: 6–7 fingers, thin, flexible backward, no thumb.
- Feet: 3-toed pads.
- Behavior: Rigid movement, clinical detachment.
- Corroboration: Abductee accounts (polygraph-passed), Grusch indirect ("non-human biologics" from crashes), Elizondo's "worker class" classification.

2. Nordic (Humanoid, Closest to Baseline)

- Height: 6–7 feet.
- Build: Athletic, proportional.
- Skin: Pale ivory, flawless (no pores/wrinkles).
- Hair: Platinum-blonde or white, straight.
- Eyes: Large, blue/green, human-shaped.
- Hands: 5 fingers, slender, polished nails.
- Feet: 5 toes (boots or bare).

-© 2026 Tyrone Farmer / Soliver LLC – All Rights Reserved. Proprietary. No reproduction without written permission. Contact: 317-366-3064 | www.soliverllc.com

- Behavior: Telepathic communication, calm demeanor.
- Corroboration: Elizondo's "peaceful contact" reports, abductee descriptions (multiple polygraphs), cross-matched with "space brothers" folklore.

3. Reptilian (Aggressive Variant)

- Height: 7–8 feet.
- Build: Muscular, upright.
- Skin: Rough, scaly olive-green/brown.
- Head: Elongated, ridged brow.
- Eyes: Vertical yellow slits.
- Hands: 4 clawed fingers, black talons (retractable).
- Feet: 3-clawed.
- Tail: Present in some reports (tapered), absent in others—possible sub-type.
- Behavior: Predatory posture, sulfur odor noted.
- Corroboration: Elizondo's "reptilian" category, abductee testimonies (shape-shifting claims), Grusch indirect (retrieval programs).

4. Mantis/Insectoid (Overseer Type)

- Height: 8+ feet.
- Build: Segmented exoskeleton.
- Skin: Glossy brown-green.

- Head: Triangular, mantis-like.
- Eyes: Compound, iridescent facets.
- Hands: 3 jointed, sharp-tipped fingers.
- Feet: Claw-pads.
- Behavior: Immobile, ancient vibe.
- Corroboration: Abductee reports (high strangeness), Elizondo's "insectoid" listing, cross-referenced with mantis entities in modern encounters.

Historical Corroboration (Multi-Nation, Same Events)

- 218 BC (Rome/Carthage): "Burning shields" (round discs) over battlefields—Livy & Carthaginian echoes.
- 173 BC (Rome): "Fleet of ships" (orbs) – Obsequens & Livy.
- 1944–45 (Allies/Axis): Foo Fighters (orbs/spheres)—U.S./German pilot logs.
- 1960s (U.S./North Vietnam): Silent discs/orbs—DMZ reports.

Key Fact Stack

- All types humanoid/bipedal—no blobs/tentacles.
- Shapes consistent: orbs/discs dominant across eras.
- No public bodies—only "non-human biologics" (Grusch, 2023 testimony).
- Tech jumps post-1947 (transistors, stealth) align with crash recoveries.
- Multiple species: 4+ reported, no single origin.

-/-

Title: Corroborated Evidence of Non-Human Entities and Artifacts: A First-Mover Analysis

Author & Researcher: Tyrone Farmer

Date: March 14, 2026

Abstract

This document compiles corroborated data from declassified U.S. testimony, historical multi-nation records, abductee polygraphs, and recent artifact analysis (Buga sphere). All claims rest on independent sources—no speculation. The intent: provide undeniable metadata for humanity's readiness.

1. Methodology

- Cross-verification: Only events with two+ independent sides (e.g., Allied/Axis, Rome/Carthage).
- Sources: Grusch 2023 testimony (Congress.gov), Elizondo (AATIP/AARO), Livy/Pliny/Obsequens (ancient texts), Buga 2025 reports (X-ray, material science).
- Criteria: Polygraph-passed witnesses, official logs, no fiction.

2. Historical Corroboration – Sky Objects

- 218 BC: "Burning shields" (round discs) over Punic War battlefields—Livy (Roman) + Carthaginian records.
- 173 BC: "Fleet of ships" (orbs)—Obsequens + Livy.
- 1944–45: Foo Fighters (orbs/spheres)—U.S./German pilot logs (declassified).
- 1960s: Silent discs/orbs over DMZ—U.S./North Vietnamese reports.
  Pattern: Orbs/discs dominant. No human tech matches.

3. Non-Human Entities (NHE) – Four Types

From Elizondo classifications, Grusch indirect ("non-human biologics"), abductee polygraphs.

- **Gray**: 3–4 ft, slate-gray skin, oversized head, black almond eyes, 6–7 thin fingers (backward-flex), 3-toed pads. Rigid, clinical. Corroboration: Abductee reports, Grusch "biologics from crashes."
- **Nordic**: 6–7 ft, pale flawless skin, platinum hair, blue/green eyes, 5 slender fingers. Telepathic, calm. Corroboration: Elizondo "peaceful contact," polygraphs.
- **Reptilian**: 7–8 ft, scaly olive-brown, vertical yellow eyes, 4 clawed fingers (retractable), optional tail. Predatory. Corroboration: Elizondo category, shape-shift claims.

- **Mantis**: 8+ ft, glossy exoskeleton, compound eyes, 3 sharp-tipped fingers. Immobile, ancient. Corroboration: High-strangeness reports.

All bipedal/humanoid. No blobs.

4. Crash Retrievals & Biologics

Grusch 2023 (Congress.gov): "Non-human biologics" recovered from crashes. Quote: "Biologics came with some of these recoveries… nonhuman." Multi-decade program, denied access. 40+ witnesses. No public bodies—only indirect.

5. Buga Sphere Integration (2025)

- Discovery: March 2, 2025, Buga, Colombia—metallic orb, zig-zag flight, recovered by locals.
- X-ray: Three metal-like layers, 18 micro-spheres around central "chip," no welds/joints (The Sun, May 2025). Density near human bone—possible titanium/steel, but seamless.
- Hardness: Small variations, no magnetic response. Symbols decoded (AI): "union, energy, consciousness."
- Corroboration: Eyewitnesses (Velez el Potro), initial tests—artificial, non-human assembly. Matches orb pattern (Rome, WWII).

6. Tech Jumps Post-1947

Transistors, stealth, fiber optics—align with Roswell/Grusch retrievals. China leaps (quantum, hypersonics) suggest parallel recoveries.

Conclusion – Tyrone Farmer's Note

I ain't no expert. I'm just a guy who stayed up late, read the files, connected the dots. No fear—just facts. We've seen 'em in wars, in crashes, in orbs. We've got their biologics, their spheres. Governments hide it 'cause they're scared. But we don't gotta be. This ain't about proof—it's about waking up. We live with 'em. Always have. Time to stop pretending. Open your eyes. See the data. Build the Forge. Meet 'em right. Not as prey—as equals. That's it.

Dossier Addendum: Risk & Engagement Framework

Compiler & Researcher: Tyrone Farmer

Date: March 14, 2026

Classification: Proprietary / Soliver LLC – First-Mover Intelligence Briefing

Purpose: Provide actionable protocols for each corroborated Non-Human Entity (NHE) type. All entries derived from cross-verified testimony, historical logs, and crash-retrieval data. No speculation—only observed patterns.

Entity Risk & Engagement Table

1. **Gray**
    - Threat Level: Low
    - Observed Behavior: Clinical, non-aggressive, observation-focused.
    - Interaction Protocol: Observe first. If contact initiated—verbal/telepathic response only. No weapons. No sudden moves. Record. Report.
    - Rationale: Primary abduction reports show no harm unless resisted. Likely "worker" role—scout, sample, leave.
2. **Nordic**
    - Threat Level: Low
    - Observed Behavior: Calm, communicative, non-hostile. Telepathic contact reported as soothing.
    - Interaction Protocol: Engage directly—open dialogue. Maintain eye contact. No defensive posture. Offer neutral ground (no weapons, no tech).
    - Rationale: Described as "peaceful" or "guide" type. Highest human compatibility. Potential diplomatic bridge.
3. **Reptilian**
    - Threat Level: High
    - Observed Behavior: Predatory, territorial. Shape-shift claims suggest deception. Sulfur odor noted—possible biological marker.

- Interaction Protocol: Activate shield (plasma or Luminous Forge defense mode). No verbal first—observe distance. If hostile—defend only. Do not pursue.

- Rationale: Aggressive posture, claw/tail reports. Possible enforcer caste. Retaliation risk elevated.

4. **Mantis/Insectoid**
    - Threat Level: Medium-High
    - Observed Behavior: Detached, immobile, ancient. No direct aggression—feels like "judgment."
    - Interaction Protocol: Maintain space. No direct address unless initiated. Record vibration patterns. If engaged—respond calmly, no threat.
    - Rationale: Overseer vibe. High intelligence, low emotion. Potential gatekeeper—don't provoke.

Buga Sphere – Artifact Addendum

- Object: Metallic orb, recovered March 2, 2025, Buga, Colombia.
- Specs: Three seamless metal layers, 18 micro-spheres orbiting central core ("chip"), no welds. Density matches titanium/steel alloy—yet impossible fabrication. Symbols: "union, energy, consciousness" (AI-decoded).
- Implication: Not human-made. Matches orb pattern (Rome 218 BC, WWII Foo Fighters). Possible probe, beacon, or warning.
- Protocol: Secure, analyze, replicate. Do not activate without containment.

Final Note – Tyrone Farmer

I dug through every file, every log, every whisper—alone. No team. No grant. Just me, the printer, and the truth. This isn't about fear. It's about what we've always known: we're not alone. We've been watched. We've been hit. We've got their scrap. And now—we've got the Forge. Not to fight. To stand. To say: "We see you. We're ready." If you're reading this—don't look away. The data's here. The visuals are here. The future's here. Time to stop hiding. Time to build. Time to meet 'em right.
